

DUAL MAGDRIVE PUMP RACK

- Proven ASI Magnetically-driven Gear Pumps
- Flow Rates From 2gpm - 8gpm
- Explosion-proof Components
- Dual Pump Redundancy Options
- PLC & Pressure Switch Activated Smart Pump Switching Options
- 3-year No-leak Warranty On ASI Pumps
- Fully Customizable To Fit Your Specific Needs

Our standard pump racks are based on our simple design originally manufactured in 1993.

When you put the PLC pump switching system on this skid, you create a great deal of confidence within this aspect of your additive system.

"ASI's quick response to our needs for parts, equipment, and/or advice/troubleshooting is greatly appreciated" - Jeffrey M. Donahue, Crown Central Petroleum Corporation
