Since 1984, ASI has always had the customer in mind. We saw a need for a reliable pump that did not leak. The only logical and economical solution was a “sealless” pump. It needed to be rugged enough to handle harsh chemicals and precise enough for fuel additives.

In early 1992, after nearly two years of research and development, ASI shipped the first 8gpm production pump. In less than a year, ASI saw a need to produce different sizes for other applications. Today, we have over fifteen models and more than 5,000 pumps in service.

**THE FIRST 8 GPM PRODUCTION PUMP**

Products
Custom fabricate to your spec’ in steel, aluminum, SS, etc.
Industrial, commercial, agricultural, residential
Gasoline, Diesel, Biodiesel, CNG, Ethanol, Jet, Water, etc.
Turnkey Truck Racks, Blending Skids, Metering Skids
High Pressure Sampling Pumps
Leak-Free Magnetically-Coupled Gear Pumps
SS Hammer Industrial Duty Magnetically-Coupled Pumps
Tanks built to virtually any size
OSHA Standards, NFPA Specifications
Custom Vent Hatches
Mercaptan Injection Systems
Desiccant Filters, Specialty Breathers
Additive Monitoring and Management Systems
Custom containment pans
Ladders, Platforms, Cages
Mechanical Gauges
“Red-line” Tank Gauges
Portable Additive Systems

Service
Turnkey Installation of Additive Equipment
Quality Preventative Maintenance Programs
Complete System Calibration
Retrofit Installation of existing equipment
General Maintenance
Complete CAD Services and Design
Systems Replacement and Upgrades
Over 250 Years Combined Employee Experience
Guarantee the Job Is Done Right
Tailored jobs for specific requirements

TEAM & EXPERIENCE
ASI has created an environment that includes the most proficient and experienced people in the industry. Currently our team consists of over 30 employees and 250 years of combined experience. This includes electrical, mechanical, computerization, and design any of today’s high-tech needs, as well as having the knowledge and expertise to work with products that revolutionized the market over fifty years ago.
